

# Berry Bash Party!

## Patagonian Maqui Juice Success Stories

*"An ounce isn't very much! I have these little cups and I poured out 1 ounce. The flavor is so smooth so enjoyable that I sip it. Kind of like the wine tasters do, swirl it around in your mouth a little bit before you take another sip."*

*One thing I have noticed is that I haven't had the urge to do any snacking. But I do have the urge to go the fridge and have another ounce of the Maqui juice!*

*Another observation is that my husband doesn't believe in taking supplements but he has taken the Maqui Juice with me, all three mornings. He said "This stuff really tastes good!"*

*I also shared it with a friend of mine that was on a competitor's similar product with another berry and she said this really tasted good. It tasted better than the other one she had used for a couple of months. She said she thought her kids would like this where her kids didn't like the other one. Her thirteen year old was close by so he tried it and he said, "Boy this is really good." So I don't think there will be a problem with people liking this."*

*C.P.*

*"I was able to try the Patagonian Maqui Juice this past Friday and I've been using it for about 3 days now. I was very surprised by the taste, it's very smooth, no after taste, it actually makes you want more. One thing it has done, I had a sore throat Friday and was also very congested. When I woke up on Saturday my sore throat was gone and It's opened me up to where I'm draining. I couldn't before cause I was so stuffed up. I have a sense of more well-being and just more energy. I just feel good. My wife has tried it also and loves it."*

*D.B.*

*"I'm telling you it is absolutely delicious! The flavor of it, the smoothness, it's wonderful, not like anything I've ever tried. I think it is totally delicious. I've also had the opportunity to try it for a few days now, and I received a lot of compliments earlier today. People were coming in my business saying, "Well you look bright today!" "You look pleasurable, what in the world are you on?" And I just said "Oh, I'll tell you later!" Cause the Patagonian Maqui juice is the only thing that I've done that's different."*

## Patagonian Maqui Juice Success Stories

*"Well first of all, everyone has been talking about the taste. But, when I pulled this bottle out of the box I just couldn't believe the packaging you guys put together over there. Its marketing potential is just unbelievable. I actually didn't even open it until about three hours later. I was outside with my computer and I just kept pulling it out and looking at it and putting it back in the fridge. What a great job you guys did. When you pick it up its nice and heavy, a full 32 ounces. It's a quality product, People; you're going to be really proud to carry this. When I finally tasted it, I'm very fussy, people that know me just shake their heads. It was very light and very refreshing we had a lot of hot weather up here this weekend. I'll tell you just taking a swig quenches your thirst. What really got me was there was no after taste at all The way I describe it is light and refreshing for the three days I did stop taking my maximum velocity. I believe this product is going to out sell and out reorder the maximum velocity 10 to 1. I only have 2 ounces left!" P.C.*

*"I got the product on Friday and before it was chilled, I was just so excited about it, I had to try it! It was warm but it was still wonderful. There was no after taste and it was smooth. I noticed the energy right away. I kept saying I didn't feel anything else, but today I realized that I had not snack all weekend. I normally snack all day long Saturday and Sunday. But, we didn't snack all weekend long! I was impressed by that! I thought to myself, "Wow No snacking on Saturday or Sunday." I can't wait to see what happens in a month!" W.S.*

*"I tasted the new product , It is everything everyone has said about it and more. I have tried most of all the juice products on the market today and found our product tastes much better. I took 1 oz then 1 more oz then 2 more. could have drank the whole bottle. It is fantastic. This is going to be a huge success! Orders will be for multi-cases at a time. Berry Parties will move many cases of product. Can not wait for the Reps to get some." J.H.*

*"Wow! If the Patagonian Maqui Juice produces the result 1/10th as well as it tastes, we truly have the hottest product ever to hit the market. It is delicious and very hard to drink only a couple of ounces. The taste makes you want to drink the whole bottle. I can already see that we need a bunch of it on hand. First I am going to have to fight Gale for it, she loves it too, and she already has a list of names put together of people she wants to have try it. You may have just created another unknowing marketer. Thanks so much! We will keep you posted on the results we are having from the product!" -D.P.*

## Patagonian Maqui Juice Success Stories

*"I could drink the whole bottle!" -L.W.*

*"I was at a Convention in Dallas, TX one month ago and had to miss a wonderful speaker on the very first day, I was forced to leave because of ulcer problems. I had been having these problems for 4 months. My doctors had me on several prescriptions; Zantac, Pepcid, Prilosec, none of which were working, I was continuing to have the same problems as before. We went out to dinner that night and one of my friends I had traveled with had to take me back to the hotel room early. When I received my first sample bottle I took a few ounces of this product the very first night. The next day my ulcer pain was gone. The following day I had my appetite back and was able to eat. By the 3<sup>rd</sup> day the blood in my stool had completely gone away. I started feeling better and things have gotten better since then. I have not had any problems what so ever since beginning the product. If there were only one more bottle available there wouldn't be enough money in the world for it!" -D.B.*

*"Everyone is looking for the berry products, and is delightfully pleasant to swallow." -P.G.*

*"This juice has a very refreshing, slightly sweet taste. It's definitely suitable for most palates. I think my husband, whom typically doesn't like the taste of any health supplement liquids, will also be able to enjoy this great tasting product and will continue to take it daily. I may even need to hide the bottle from him so he doesn't take more than the recommended amount!" -M.G.*

*"I thought the juice had a great yet mellow flavor. Some juices are overwhelming and I would not consider them, sometimes just because of the smell. This is something that I would drink on a daily basis and believe that my picky family would also drink. There is the right amount of fruit flavor without having an aftertaste or upsetting your stomach." -T.M.*

*"Frankly...I enjoyed it. I took small sips and swished around my mouth (wine tasting trick) to savor and identify the flavor. The fact that it is not too sweet is a plus to me. I want to drink MORE than the daily DOSE!" -E.G.*
